

Perimeters and Missing Measures

Home Link 8-6

NAME _____

DATE _____

TIME _____

Use a formula to find the perimeter of each rectangle. Show your work in the space provided.

<p>① Length = $3\frac{3}{6}$ yd</p> <p> Width = $\frac{1}{6}$ yd</p> <p>Perimeter: _____ yd</p>	<p>② Length = $5\frac{1}{12}$ ft</p> <p> Width = $4\frac{11}{12}$ ft</p> <p>Perimeter: _____ ft</p>
---	---

For each rectangle, find the unknown side measure.

<p>③ Perimeter: $\frac{74}{100}$ kilometer</p> <p>Length = $\frac{25}{100}$ km</p> <p> Width = _____ km</p>	<p>④ Perimeter: 10 inches</p> <p>Length = $4\frac{3}{8}$ in.</p> <p> Width = _____ in.</p>
<p>⑤ Perimeter: $12\frac{8}{10}$ centimeters</p> <p>Length = $4\frac{1}{10}$ cm</p> <p> Width = _____ cm</p>	<p>Try This</p> <p>⑥ Perimeter: $16\frac{1}{2}$ ft</p> <p>Length = _____ ft</p> <p> Width = $3\frac{1}{2}$ ft</p>

Practice

⑦ $2 * \frac{2}{3} =$ _____

⑧ $5 * \frac{3}{4} =$ _____

⑨ $9 * \frac{4}{5} =$ _____

⑩ $8 * \frac{6}{12} =$ _____
